

Shredding System Design

Ameri-shred can maximize the available space, increase efficiency, reduce labor costs and impact your profitability regardless of the size of your system.

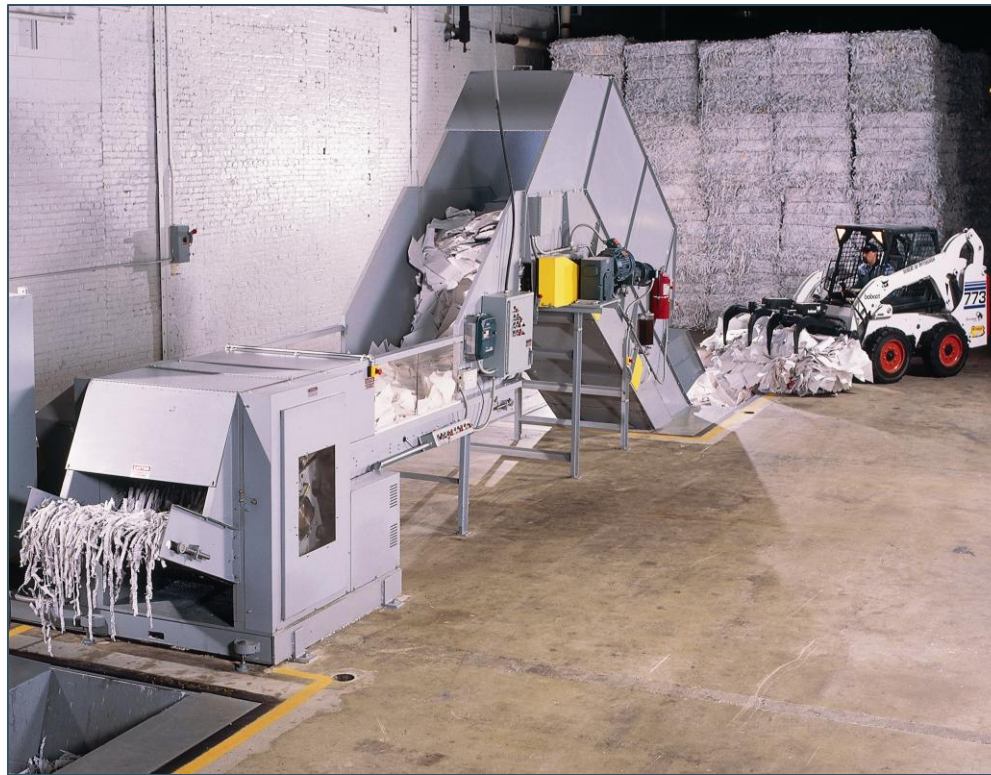

Industrial Paper Shredders: Series 4

Shown with a custom cart tipper, above ground paper metering system, baler feed conveyor and horizontal baler

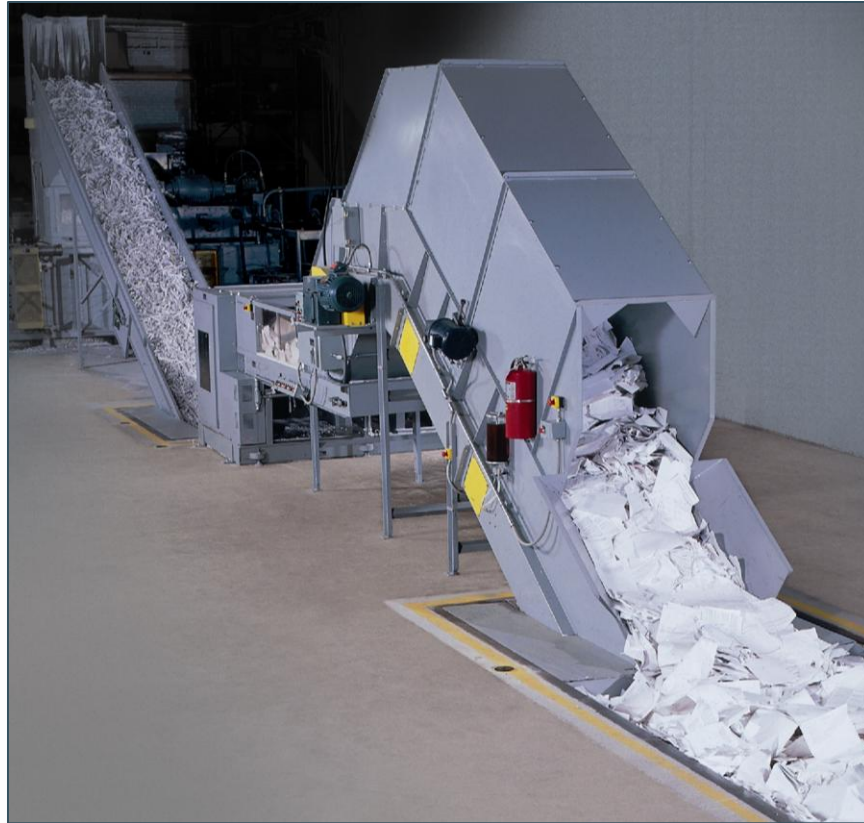

PMS-3 In-ground Paper Metering System

Shown being loaded by a Bobcat and feeding
an AMS-15000 shredder, which discharges into
a secondary PMS-3 that feeds a baler

Industrial Paper Shredders: Series 5

Shown with an in-ground paper metering system,
baler feed conveyor and horizontal baler

Double Cut Shredding System

Shown with an in-ground paper metering system, top loaded AMS-12500 shredder, conveyor fed AMS-15000 shredder and baler feed conveyor

Double Cut Shredding System

Shown with an in-ground paper metering system, metal detector, top loaded AMS-15000 shredder with top covers, conveyor fed AMS-20000 shredder with top covers and baler feed conveyor
