

PMS-3 PAPER METERING SYSTEM Below Ground

A paper metering system maximizes production while reducing labor costs by automatically feeding the shredder at a constant and consistent rate.

Standard Features:

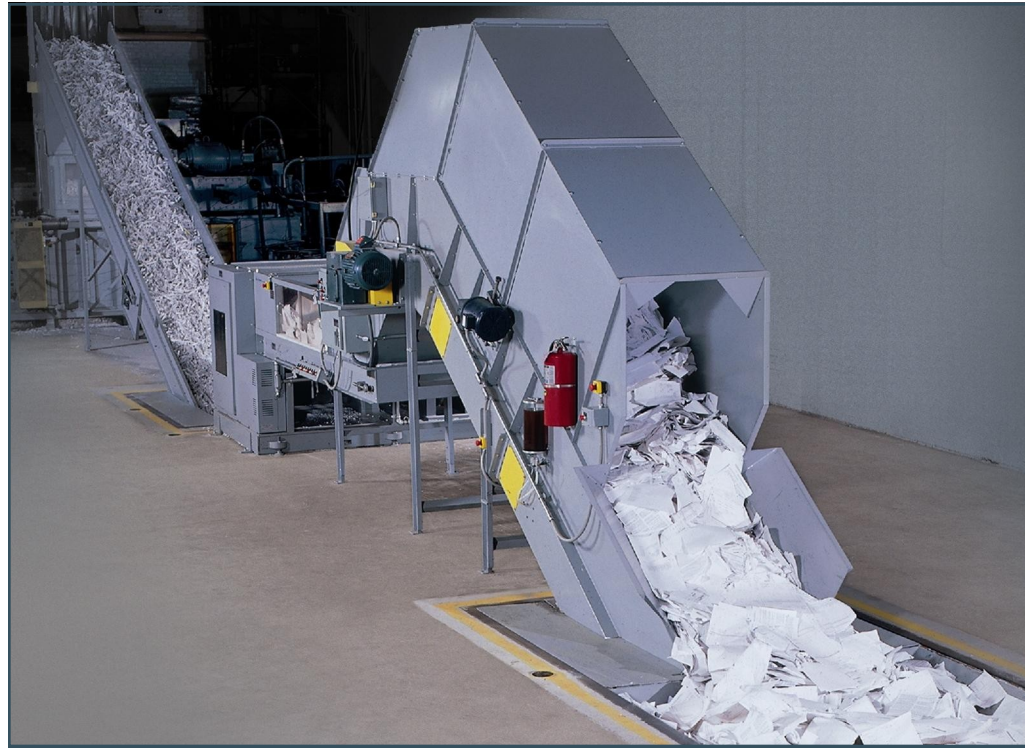

- Pit capacity: 3000 lbs.
- Pit is accessible from 3 sides
- Single, steel belt conveyor design with lower horizontal, incline, and upper horizontal portions that eliminate paper spillage.
- Heavy duty drum style metering wheel with staggered teeth for more consistent feeding
- Provides for bulk loading using cart tipplers, box dumpers, forklifts & Bobcats
- Can be integrated with the shredder's control panel
- Variable speed drive allows the operator to adjust the feed rate
