- Metal
- Paper & Cardboard
- Plastic
- Product Destruction
- Textiles & Fibers
- Tires
- Wood

SSD SHREDDERS

PAPER SHREDDERS

HARD DRIVE SHREDDERS

MEDICAL PLANT WASTE

DUAL SHAFT SHREDDERS

Why Choose Ameri-Shred?

- American made and industry proven shredders and recycling equipment
- Knowledgeable Customer Service Team
- Parts and Service Department second to none
- Charter Member of NAID
- Innovative product and system designs
- One stop source for system concept to installation

Hard Drive Shredders

DUAL CHAMBER HARD DRIVE SHREDDERS

Hard Drives, Solid State Drives as well as many other types of electronic media are easily managed and destroyed with this lineup of Ameri-Shred dual chamber shredders. There are 3 series to meet a range of throughput requirements. Ameri-Shred's dual chamber hard drive shredders are field proven and designed to provide secure destruction.

- Series 1 offers 1.5 or 3 HP
- Series 2 offers 5, 7.5, or 10 HP
- Series 3 offers 15 or 20 HP

Series 1

SINGLE CHAMBER HARD DRIVE SHREDDERS

This lineup of shredders is ideal for hard drives, server drives, data tapes, cell phones and other small e-scrap. The low speed high torque design ensures longevity, consistent throughput and quiet operation. Ameri-Shred offers numerous options for the single chamber hard drive shredders including:

- Shred Width options from 3/8" to 1 1/2"
- Air filtration systems
- Fork pockets
- Custom logo's and powder coated finishes
- Infeed and discharge conveyors
- Hard drive counter
- Viewing windows

Series 2

Series 3

SOLID STATE HARD DRIVE SHREDDERS

Ameri-Shred's Solid State Hammermill shredder can destroy SSD's, thumb drives, memory cards and other solid state devices into unrecognizable particles. The 2 stage shredding process utilizes a low speed high torque primary shredder to reduce the media which is then fed directly into a hammer mill equipped with interchangeable screens from 2mm to 6mm.

Material is collected with integrated cyclone collection system which contains dust generated from shredding process.

- Up to 150 SSD's per hour
- Optional screen sizes 2mm to 10mm
- Infeed conveyor
- PLC controlled for auto-feed and auto-reverse

MOBILE SOLUTIONS

Ameri-Shred offers mobile options for all series hard drive shredders and many paper shredders. Equipment can be factory installed in truck, trailer, or van depending on the need.

Ameri-Shred's experienced sales staff can help determine the best mobile solution for your destruction needs.

Solid State 2mm SSD

Solid State 6mm SSD

DUAL SHAFT SHREDDERS

Dual Shaft shredders are well suited for destruction and primary size reduction applications. These low speed high torque shredders can handle a wide range of products from recycling tissue to the destruction of automotive parts.

Applications Include

- Books
- E-Scrap
- Tires
- Automotive parts
- Plastic
- Clothes
- Counterfeit Products
- Appliances
- Printer scrap
- Wood Scrap

SECURE DESTRUCTION

Amer-Shred has a long history of providing shredders to protect privacy through the secure destruction of paper records, documents, plastics, e-scrap and other media in a safe and compliant way.

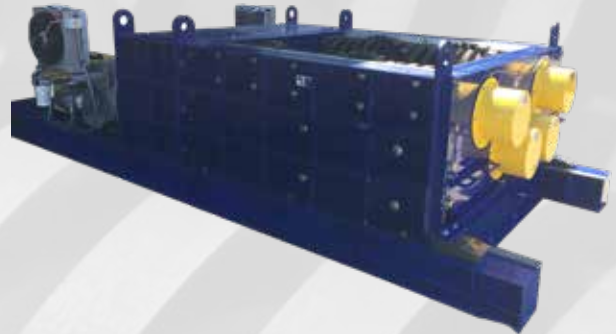

Safeguard your organization's reputation by securely shredding sensitive and confidential media while reducing the transfer and storage footprint of waste. Reduce costs by shredding documents no longer useful or necessary. Ensure compliance by shredding media in accordance with federal, state and industry regulations to avoid penalties, fines or legal action. Ameri-Shred has a shredder designed to meet the demands of your application.

POST-SALE SUPPORT

Factory service and support is available nationwide for all Ameri-Shred products. We take great pride in our after sale support and are repeatedly told that we have a service department that is second to none. We remain at our customer's service for technical support, repair, installation and parts.

QUAD SHAFT SHREDDERS

Ameri-Shred Quad Shaft Shredders are built for durability and performance. Horsepower ranges from 50 to 400 HP. The Ameri-Shred sales team can help you select a model to suit your needs. Quad shaft shredders are equipped with sizing screens that provide a consistently sized output that is suitable for downstream separation.

Features

- PLC controlled auto reverse
- Electromechanical jam protection
- In line Planetary Drive system
- Various screen size options
- HP range 50 to 400
- Custom cutters for variety of applications

Features & Benefits

Ameri-Shred offers a complete line of industrial shredders to meet the needs of many applications. Whether your project demands are throughput, particle size, energy consumption, safety, or mobility Ameri-Shred can engineer a solution to fit your needs.

- One stop shop for many shredding applications
- Custom Cutter configurations based on application
- Complete system design and integration
- Air particulate systems
- Custom infeed and discharge conveyors
- UL 508 Control Panels
- Powder Coat finish on all products
- Custom logo
